

whole project command npm run sort:imports-length

```
"scripts": {  
  "sort": "node scripts/sort-imports.js",    ==> import sort.js file name  
},
```

single page

```
"script":{  
"sort": "node scripts/sort.js"      ==> sort.js file name  
}
```

npm run sort -- src/reduxToolkit/store.js

reduxToolkit folder name store.js us folder mai jo file hai usy sort kar dey ga
